Comments/Special Requirements:

1. City of Medina Police Dept. (330-725-7777) must be notified 4 hours prior to this move.

This permit is to be in the possession of employees in charge of work at all times. To be shown upon request to any employee of the City of Medina Engineer's Department, or to any Law Enforcement Officer upon request. Failure of the Permit Holder to notify the Permit Department before move commences, or if move is cancelled, may result in withholding of future permit applications.

This permit shall be void unless the work herein contemplated shall have been completed before: xx/xx/2022.

Authorized Agent: _____

Patrick Patton, P.E.
City of Medina Engineer
Permit Coordinator

Form SH 1 must be attached.

LIMITATIONS ON THE USE OF A SPECIAL HAULING PERMIT

1. The granting of a permit does not guarantee that the load described can be moved without damage to the pavement or structures; although the permit is granted on the assumption that the load can be moved without damage based on the best information available.
2. Permittee will be held liable for any damage caused by the movement. The City of Medina assumes no responsibility for damage to the permittee's equipment or load being moved, due to any such failure. The permittee agrees to compensate the City of Medina for any damage to a roadway or road structure and also to hold the City of Medina and the Medina City Engineer harmless from all claims, damage, or proceedings of any kind and from all responsibility for personal injury or property damages (public or private) caused directly or indirectly as a result of the transportation of said vehicle(s) or object(s).
3. The applicant must file a bond and certificate of his liability insurance, showing that he has procured adequate bond and insurance to cover the provisions of paragraph two.
4. The permit shall be in the possession of the driver at all times during the progress of transportation and will be shown on demand to any employee of the Medina City Engineer's Department, or to any Law Enforcement Officer.
5. The permission granted restricts the movement of the vehicle(s) or object(s) to the roadways specified, between the points designated, and within the time allotted.
6. A representative of the Medina City Engineer must be present during the time of movement. Notification of the exact time of movement must be made during the Medina City Engineer's normal working hours. A minimum of one hour is required between time of notification and start of move.
7. No vehicle(s) or object(s) in excess of the legal limits prescribed by law shall be permitted on the City of Medina roadways on Saturdays, Sundays, or Holidays.
8. Movements under a City of Medina Special Hauling Permit shall be made during daylight hours only and in such a manner to impede the least possible extent the normal roadway traffic.
9. No vehicle(s) or object(s) being transported under City of Medina Special Hauling Permit shall be left parked on the roadway either day or night except in case of emergency, in which case adequate protection shall be provided for the traveling public. The vehicle(s) shall not be loaded or unloaded within the limits of the roadway.
10. The operator of the vehicle must comply with all laws, rules, or regulations covering the movement of traffic over roadways and streets.
11. All construction equipment and other machinery shall have attached thereto a plate showing the manufacturer's name and the model.
12. A permit is void at any time road, weather, or traffic conditions make travel unsafe.
13. A permit will not be issued for built-up loads that are divisible into legal loads.
14. Oversize or overweight loads shall be operated or moved at such speeds and in such manner as to cause a minimum of interference with other traffic and minimum impact stresses on structures and pavements. No such movement is to exceed 40 miles per hour at any time, except upon that portion of a roadway where the posted minimum speed is excess of 40 miles per hour. The allowable maximum then becomes equivalent to the minimum posted speed.
15. Loads having extremely large dimensions shall require additional protective measures when necessary for the safeguarding of other traffic. Due regard shall be taken of traffic in both directions and every possible effort shall be made to prevent traffic congestion. One or more flagmen, or a pilot car may be required.
16. Non-compliance with the general or special provisions of a permit, exceeding the weights or dimensions granted, or operating on dates or upon roadways other than assigned, shall render the permit null and void and the operator of the vehicle subject to arrest as provided in Chapter 5577 of the Ohio Revised Code or Chapter 339 of the Medina Codified Ordinances.

SPECIAL PROVISIONS (Applies when indicated by ' X ')

- X Display clean red flags not less than 16 inches square and fastened to staffs of sufficient length so as to permit the flags to move freely of any obstructions, located as follows: One at each end of the front bumper at a 45 degree angle, one at each of the four corners of the vehicle or load, and if there is any part of the load wider, one at the widest point on either side.
- N/A Medina Police Department escort(s) required:
- X Follow all State requirements and any others noted on the front of this permit.
- X The City of Medina reserves the right to request a Medina Police Department escort at any time on any oversized load under any type of permit.
