COMMENTS & QUESTIONS

Make sure to ask all the different type of riders about the park. The park should be not just for skaters. Family friendly and all wheels should be welcome.

About when will this new skate park start construction?

Having nice smooth concrete is important. It's the only reason I go to the current park.

COMMON CONCERN

The ground at the park needs resurfaced. The ground is similar to a cheese grater in terms of coarseness.

Any design, plus a fresh layer of concrete would be a huge upgrade. The current flat ground is very rough.

The concrete needs smoothed out at this location. It is so rough that you lose speed and your feet go numb.

Having nice smooth concrete is important. It's the only reason I don't go to the current park.

The concrete surface should also be refinished if not already in the plans. Not very smooth currently. Thank you for all your hard work on this project!!
