

MEMORANDUM

DATE: June 6, 2024
TO: Planning Commission
FROM: Andrew Dutton, Community Development Director
SUBJECT: Zoning Code Amendments

Initial Approval

The following are proposed amendments to the Zoning Code, found in Part 11 of the City of Medina Codified Ordinances. The amendments address a variety of topics including review procedures, fence regulations, open porch setbacks, lighting, food trucks, and short term rentals.

Zoning Amendment, Variance, Site Plan, and Conditional Zoning Certificate Review (p. 1 - 4)

The review processes for Zoning Amendments, Variances, and Site Plans have been revised to:

- Provide a consistent review process.
- Require that the Planning Director forward complete applications to the Board of Zoning Appeals or Planning Commission within 30 days.
- Require that the Board of Zoning Appeals and Planning Commission make a decision within 45 days of their initial meeting.

The Site Plan section (1109.01) has also been revised to clarify when a Site Plan must go to the Planning Commission and when a Site Plan can be reviewed administratively by the Planning Director.

Fencing (p. 5)

Standards for fencing have been amended per the following:

- “Areas” has been replaced with “Districts”. Areas is not a defined term and is unclear in locations with a mix of uses.
- Exception ⁴ has been revised to allow fences in the front yard with a side street lot line (corner lots) to be up to 6 ft. in height within 15 ft. of the right-of-way with Planning Commission approval.
- Fences in the O-C or P-F districts may have a height of 8 ft. in the front yard with a side street lot line and barbed wire.
- Lots with double frontage, which have public rights-of-way to the front and rear of the lot, have two front yards, by definition. There are numerous such lots in the city, particularly backing up to Reagan Parkway. Exception ⁵ allows a 6 ft. fence adjacent to the yard located opposite the building’s front facade.

Roofed Porch Setbacks (p. 6)

Due to several recently granted variances and to allow existing homeowners to expand their homes in a reasonable manner, an amendment has been proposed allowing open roofed porches to extend 5 ft. into the front setback and 10 ft. into the rear setback.

Parking Lot Lighting (p. 6 - 7)

Existing parking lot lighting regulations have been revised per the following:

- Illumination Levels – Numerical illumination levels throughout a site are difficult to design, comply with, and measure. Specific lighting levels have been replaced with more general requirements. A maximum light level of 1 footcandle at a residential lot line remains unchanged.
- Luminaire Height – Lighting height is currently limited to 10 ft. in all districts except for the C-3 and I-1. A lighting height of 10 ft. is not practical and increases the number of lights needed. Height has been increased in residential districts to 15 ft. and other districts to 20 ft.
- Lighting Plan Submission – Clarification has been provided indicating that a photometric plan is needed when a site is adjacent to a residential zoning district or use.

Fitness Facility (p. 8 - 12)

A “Fitness Facility” has been removed from the “Personal or Professional Service” definition, defined separately, allowed as a permitted use in the C-3 district, and allowed as a conditional use in the C-1, C-2, and I-1 districts.

Food Trucks (p. 13 - 14)

The city does not have any current regulations regarding food trucks. Though there have not been any documented complaints regarding food trucks, staff receives regular inquiries regarding applicable regulations.

Other cities regulate food trucks in a variety of ways ranging from general regulations to formal registration programs. The proposed amendments aim to provide general regulations:

- Food trucks are not permitted in the public right-of-way unless in conjunction with a street closure permit, which is needed for larger events. Food trucks can only be located on public property, such as parks, with approval from the Mayor or his/her designee.
- The area around food trucks must be kept clean and trucks cannot operate from 11 pm to 7 am.
- Food trucks are limited in residential districts to 3 consecutive days, 12 total days in a calendar year, and the resident must pay for the food. Food trucks can operate in nonresidential districts without time limits or payment requirements.
- Food truck regulations do not apply to frozen dessert peddlers (Chapter 707) and juvenile activities (lemonade stands).

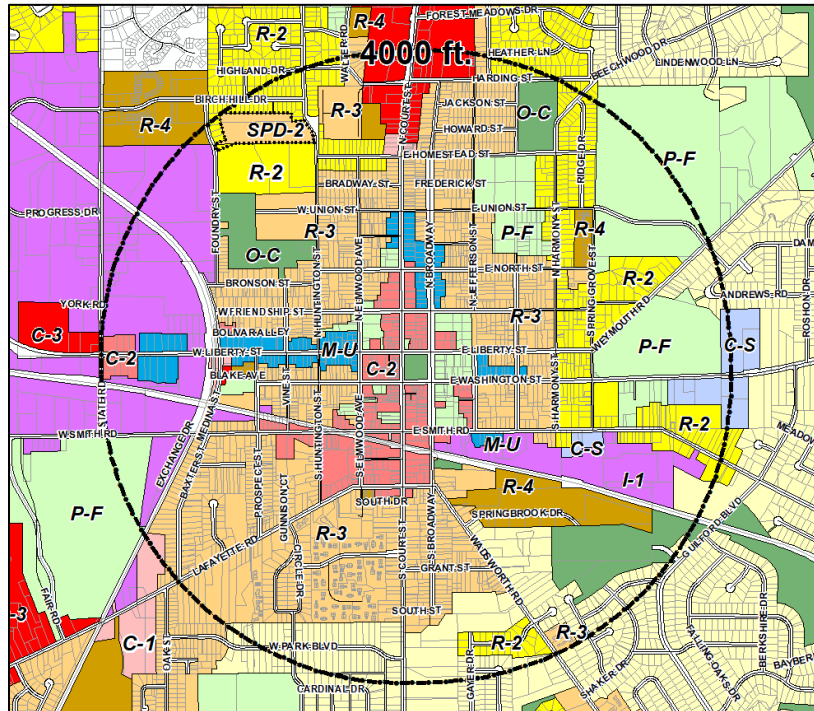

Short Term Rentals (p. 14 - 17)

Similar to food trucks, the city does not have any current regulations regarding short term rentals. The use does not fit well into existing use definitions and may be classified as a residential dwelling unit, hotel, motel, or bed and breakfast.

Short term rentals currently exist in the city within and around the Historic District. Though there have not been any documented complaints regarding short term rentals, staff receives regular inquiries regarding applicable regulations.

Also similar to food trucks, other cities regulate short term rentals in a variety of ways ranging from general regulations to formal registration programs in communities which have many tourists and visitors. The proposed amendments aim to provide general regulations:

- Short term rentals are a permitted use in the C-2 (Central Business) and M-U (Multi-Use) districts and a conditional use in the R-3 (High Density Urban Residential) district.
- Events are not permitted at short term rentals and there is a maximum occupancy based on bedrooms.
- Short term rentals are only allowed within 4,000 ft. of the Uptown Park as shown below. This encompasses the entire C-2 and M-U districts and R-3 areas near the Historic District.

- Subsection (d) includes a provision requiring that short term rentals in the R-3 district must be “unhosted sharing” which means that the home that has permanent residents that vacated for guests rather than a dedicated “vacation rental” with no permanent residents. There are existing short term rentals in the R-3 that may or may not meet this regulation. This amendment has been highlighted for discussion.
