Medina-Community-Design-Committee

# WELCOME to our ALL-AMERICAN HOMETOWN!

Founded in 1818 as the county seat, Medina was designed as a New England-style town around a central greenspace. Construction of its original brick courthouse began in 1820 and the building still stands at the SW corner of Court and Liberty Streets.

Medina grew slowly as an agricultural community and as the legal hub of county business. As early as 1835, it was incorporated as the Village of Medina.

The larger Historic Courthouse on the SE corner of Liberty and Broadway was dedicated in 1841. It survived the great fires of 1848 and 1870, the latter of which virtually destroyed the entire Square. The District was rebuilt with brick in the late 1800s, and endures as an outstanding example of late Victorian commercial architecture.

In 1869, Amos Ives Root was inspired by a swarm of bees on his store window to launch a new business which was to become the beekeeping, honey, and candle business that made Medina a center of the industry and gave us today's 150-year old Root Candles.

By 1950, Medina had grown to more than 5,000 people and became a chartered city in 1952. In 1970, the population had doubled and the community responded with paved roads, the acquisition of extensive parklands, city service improvements, and new schools.

In 1967, a group of concerned residents formed the Community Design Committee and worked with property owners to restore the Square to its pre-WWII appearance. Building by building, modern updates were removed and historic facades revealed or rebuilt. Within eight years, the Square was largely restored to its historic beauty – all with private funding. The district was placed on the National Register of Historic Places in 1975.

## History Lives on in Medina.

Medina continues to be dedicated to preserving its history. The South Town District, a former industrial hub south of the Historic Square, has been added to the already vibrant downtown shopping and dining district. Located in South Town and once the agriculture hub of Medina County, the Farmers Exchange has found new life as a mixed-use destination that includes a restaurant, coffee shop, butcher shop, farmer's market space, brewery, and two floors of apartments.

The former Holloware Foundry built by John Smart in 1874 is now The Foundry, one of Medina's major entertainment venues. This renovation includes High Voltage Karting with both indoor and outdoor tracks, Foundry Social, with an area of arcade and video games, a 150-seat conference center, dining, and the MAD Brewing Company.

Founded in 1891, the Bennett and Leach Bending Works, makers of buggy wheels, now houses Sweets & Geeks, a haven for gamers where you'll also find nostalgic sweets and pop culture memorabilia.

With private dollars and a Capital Grant, the Town Hall and Engine House Museum has had many upgrades, and the second floor has been renovated into a community room overlooking the Square.

The 1883 Spring Grove Cemetery became an accredited arboretum in 2021. The 34-acre property serves as an urban forest and public garden with a collection of 613 trees, which includes 68 species. The cemetery is open from dawn to dusk for self-guided walking tours.
