Please call the Building Department for any change or alteration anticipated for the home (additions, decks, hot tubs, pools, ramps, electrical, sheds, fences, porches, window replacement)

Guidelines Governing the Collection of Solid Waste Materials and Yard Waste from Residential Properties

1. **ALL MUNICIPAL SOLID WASTE:** (except excluded items) will be collected once a week at the curb. Items should be placed as close to the road as practical.
2. **ALL WASTE MATERIALS** shall be placed in non-disposable metal and/or plastic refuse containers or plastic bags. The non-disposable metal and/or plastic containers must have two handles and have a maximum capacity of **40** gallons and shall not exceed **35** pounds. Plastic bags must be securely tied and be of adequate thickness and not exceed thirty-five pounds. Do not use cardboard boxes or paper bags as trash containers. (Note: Spraying of ammonia or bleach on plastic bags will deter animals from scattering trash).
3. **FOR ROLL-OFF RENTAL** information call (330) 722-9026. Roll-off dumpsters are available to all City residents and Businesses.
4. **GLASS-** Residents are asked to place glass waste into their regular rubbish container(s) for disposal with other household waste. Glass must be packaged in a puncture resistant container. (i.e. a cardboard box wrapped up with heavy tape/ duct tape.)
5. **AUTOMOBILE TIRES** cannot be disposed of in landfills. Old tires must be disposed of at tire dealers, new car dealerships or participating service stations. (Call Medina County Solid Waste District for participating collection centers: 330-769-0289).
6. **PLAYGROUND SETS** must be cut in four feet lengths and bundled with heavy cord. Bundles shall not exceed 35lbs.

7. **APPLIANCES, BULK OR LARGE ITEMS** such as stoves, TV's (flat screen & projector TV's ONLY) washers, refrigerators, carpeting/padding (cut into 4 foot lengths, rolled and tied into manageable bundles, etc.) should be placed curb side with your regular collection. Mattresses and furniture may also be placed on the tree lawn for pick up. Note: Refrigerator and/or freezer doors must be removed.

A. **Refrigeration Appliances:** (includes air conditioners and dehumidifiers). Federal law prohibits the disposal of FREON into landfills. All Freon containing appliances must be taken to the Medina County Solid Waste District Facility for disposal. Some Fees May Apply. Also, visit our Website for updates on Freon Containing Appliances. There are some programs that may be available at no charge.

8. **YARD WASTE (WHICH INCLUDES BRANCHES, HEDGE CLIPPINGS, GARDEN WASTE)** will be picked up on your regular trash pick up day. Have yard waste material curbside by 6:00am.

Please use only metal or plastic containers for yard waste. Please refer to the Yard Waste Program rules and regulations on our website.

The Medina County Solid Waste District Facility does accept yard waste for a fee at the gate.

A. **Branches** should be cut in four feet lengths and bundled securely with twine or rope. Bundles shall not exceed two feet in diameter. DO NOT BAG YOUR BRANCHES. Please bundle or use cans.

B. **Grass Clippings** will only be picked up during the yard waste collection program. Please follow the yard waste program regulations as specified. Do not place your grass clippings in bags and do not mix your grass clippings with garbage. Grass Clipping may also be taken to the Medina County Processing Facility. Composting and Mulching Grass Clippings is the best way to environmentally save landfill space and reduce emissions.

C. **Leaf Collection**- The Medina City Street Department is responsible for leaf collection during the fall. During leaf season, updates and leaf collection information may be obtained by calling **(330) 725-LEAF**.

In order for the leaf program to operate more efficiently, please follow the guidelines provided below:

Bagged Leaves - Collected All Year

Bagged leaves will be picked up the same day with your normal trash pickup. Bags should be securely tied and be of adequate thickness and not exceed 35 pounds. Bags should be curbside by 6:00am.

Leaves Raked to Curb for Pick Up- Fall Season Only

- ❖ **Leaves should be placed on your tree lawn NEXT to the curb in a windrow. (If you do not have a tree lawn, put them as close to the city sidewalk as possible).**
- ❖ **DO NOT mix brush, grass or rubbish in with leaves (brush should be put out with your rubbish on your designated pick up day)**
- ❖ **Do not put leaves in the street**

- ❖ **DO NOT allow children to play in the leaves on or near the street.**
- ❖ **DO NOT park vehicles over leaves. The heat from the underside of the vehicle may cause a fire.**
- ❖ **DO NOT rake leaves into the street after leaves have been removed from your street or you will be subject to a FINE.**

Street crews will perform the annual Curbside Leaf Collection Program beginning Mid-October. The City will be divided into two sectors; North and South. Smith Road will be the divider.

One truck dispatched in the North. One truck dispatched in the South sector and the third Leaf Vacuum truck will float between the two areas to accommodate large volumes.

D. **Christmas Trees** will be picked up for a two week period starting on the first work day after December 25th.

9. **CARDBOARD & LARGE BOXES** should be collapsed and tied in bundles weighing no more than 35 pounds and not more than 4 feet in length.

10. **WASTE OIL**- Waste oil (used motor oil) cannot be disposed of with your regular trash. Used motor oil is recyclable. Several service stations will accept used motor oil in minimal quantities (five gallons or less). Call the Solid Waste District Office for a list of participating dealers (330-769-0289). The public may also bring used motor oil to the Medina County Solid Waste District Headquarters free of charge. Call Before or check their website for Hours of Operation.

11. **HOUSEHOLD HAZARDOUS WASTE (HHW)**- Items such as acids/alkaline, aerosols, antifreeze, bleach, cleaners, polishes, iodine, paint, pesticides/herbicides, gasoline, kerosene, gas, cylinders and solvents (paint thinner, turpentine, varnish, stripper) must be managed properly and safely. Call the Medina County Solid Waste District Office (330-769-0289) or visit our website for information on proper management and disposal of HHW.

12. **NEEDLES (SHARPS)** Hypodermic needles and other medical “sharps” pose a significant health threat to recycling and sanitation workers and should **NEVER** be put in your trash isolated. The safest option is to use an FDA-cleared sharps container to protect your family members, health workers, and sanitation workers prior to disposing of sharps. These containers are widely available at pharmacies and other retail stores. The container can then be properly disposed of with your trash in plain sight. There are also sharps mail back programs available for a fee. These programs provide disposal supplies and return disposal packaging and return labels when you order the sharps container. Visit www.epa.ohio.gov for more information.

13. **DELAYS IN COLLECTIONS** may occur occasionally due to inclement weather or official holidays. However, the Sanitation Clerk should be notified of any collections that are missed on a regular basis.

14. **HOLIDAYS** – New Years Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Christmas Day. When a holiday falls on a weekday, the collection for that day and all following days of that week will be one day late.

MEDINA COUNTY RECYCLING PROGRAM

Rumpke Trash Pick-up & Recycling Services will be handling the counties recyclable materials. Please contact Medina County at www.recyclemedinacounty.com or by phone at 330-769-0289 for any questions.
