

ORDINANCE NO. 229-24**AN ORDINANCE ADOPTING THE MODEL EMERGENCY ACTION PLAN FOR USE OF AN AUTOMATED EXTERNAL DEFIBRILLATOR (AED) FOR THE MEDINA PARKS AND RECREATION DEPARTMENT.**

WHEREAS: This plan was created by the Ohio Department of Health and will satisfy the requirements under House Bill 47 (ORC 3701.851); and

WHEREAS: As of October 24, 2024, House Bill 47 requires the controlling authority of all sports and recreation locations maintained and operated by Ohio cities, larger townships, and counties under R. C. 7555.12 to 755.18 to place an automated external defibrillator (AED) at each such location under its control. In addition to placing AED's at various locations, an Emergency Action Plan for the use of AED's must be adopted and practiced quarterly.

NOW, THEREFORE, BE IT ORDAINED BY THE COUNCIL OF THE CITY OF MEDINA, OHIO:

SEC. 1: The Model Emergency Action Plan for use of an Automated External Defibrillator (AED) for the City of Medina Parks and Recreation Department, is hereby adopted.

SEC. 2: That a copy of the Model Emergency Action Plan for use of an Automated External Defibrillator (AED) is marked Exhibit A, attached hereto and incorporated herein.

SEC. 3: That it is found and determined that all formal actions of this Council concerning and relating to the passage of this Ordinance were adopted in an open meeting of this Council, and that all deliberations of this Council and any of its committees that resulted in such formal action, were in meetings open to the public, in compliance with the law.

SEC. 4: That this Ordinance shall be in full force and effect at the earliest period allowed by law.

PASSED: December 9, 2024

SIGNED: John M. Coyne, III
President of Council

ATTEST: Kathy Patton
Clerk of Council

APPROVED: December 10, 2024

SIGNED: Dennis Hanwell
Mayor

Model Emergency Action Plan for the Use of an Automated External Defibrillator (AED) by Public and Chartered Nonpublic Schools, Youth Sports Organizations, Sports and Recreation Locations

Note: This model plan may be used to satisfy requirements under House Bill 47 of the 135th General Assembly (ORC 3701.851). Alternatively, an entity may adopt other emergency action plans for the use of AEDs.

The Centers for Disease Control and Prevention (CDC) defines cardiac arrest as when the heart suddenly and unexpectedly stops beating and blood stops flowing to the rest of the body. Cardiopulmonary resuscitation (CPR) and Automated External Defibrillators (AEDs) are to be used when a person is unresponsive, is not breathing, or the heartbeat stops.

A. How to Use an AED:

Please note: For persons under age 8, pediatric AED pads should be used whenever possible. However, if not available, use adult pads. Do not use pediatric AED pads on adults.

During an emergency, designate someone who can direct first responders to the exact location of the unresponsive person once first responders arrive at the location.

Protocol:

If a person:

- Collapses suddenly and loses consciousness (passes out), or
- Is not breathing or is gasping for air, or
- Doesn't respond to shouting or tapping, or
- Doesn't have a pulse.

Note: A person's eyes may be open or closed.

Follow these steps:

1. If the scene is safe, check for responsiveness using shout-tap-shout for no more than 10 seconds.

If appearing unresponsive, check responsiveness:

Shout "Are you OK?" (use their name, if known, to get their attention).

Tap (the person's shoulder if adult or child, foot if an infant) and look for signs of rhythmic, normal breathing.

Shout (again and assess for breathing, life-threatening bleeding, or conditions).

Department of
Health

- 
2. If person is unresponsive, shout for help, **CALL EMS (9-1-1)**, and send someone to get the AED. Stay on the line with EMS (preferably on speaker phone) for instructions on CPR and AED use.
 3. Begin chest compressions until the AED arrives. *(If trained in CPR, provide CPR according to your training).*
 4. Turn on the AED and set it up according to the manufacturer's instructions. Follow the verbal instructions provided by the AED. Incorporate the AED into CPR cycles according to instructions from the AED and from any prior training.
 5. Prepare AED to check heart rhythm. Follow the AED's verbal instructions to deliver one shock as advised.
 6. **Continue CPR and follow AED verbal instructions until person responds or EMS arrives and takes over care.**

Hand Placement for Infants

Using two fingers, press down in the middle of the chest about 1.5 inches.

Hand Placement for Children

Using one or two hands, press down in the middle of the chest about 2 inches.

Hand Placement for Adults

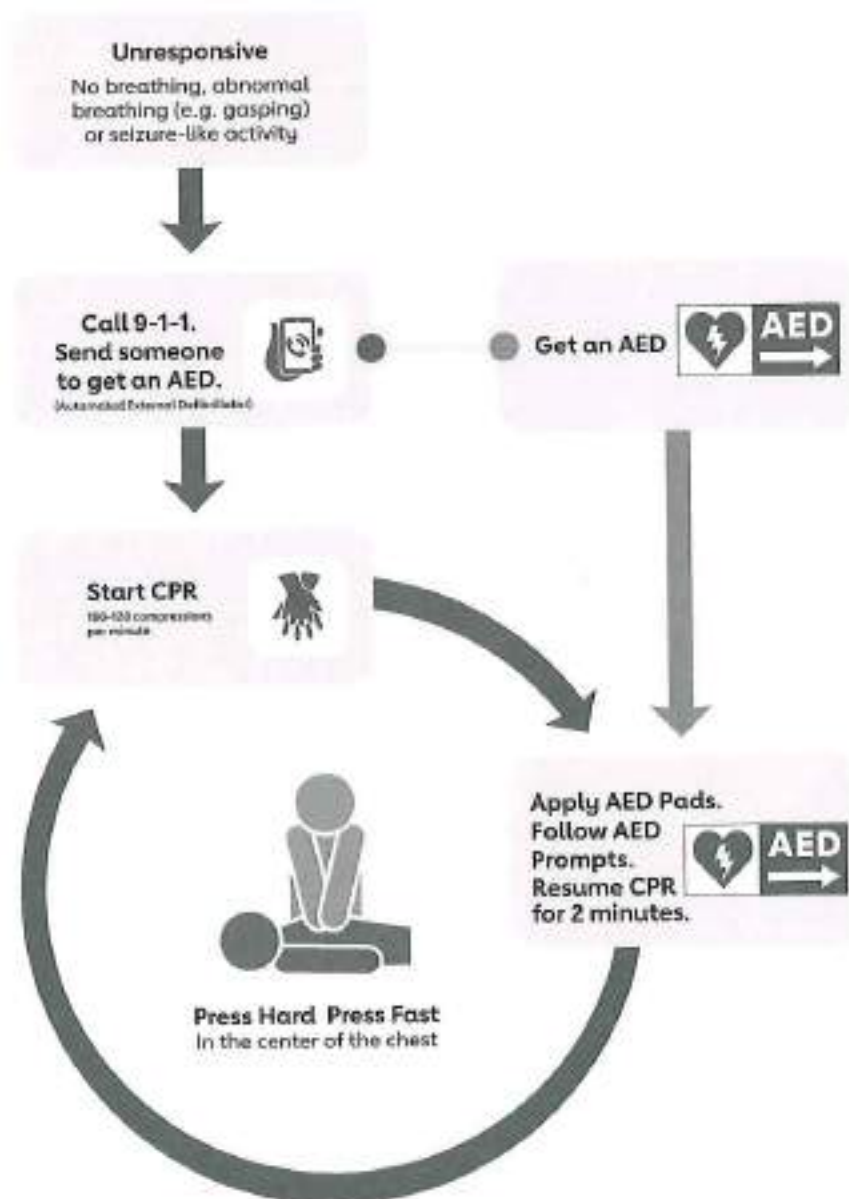

Using two hands, press down in the middle of the chest at least 2 inches.

or

Follow instructions of the 9-1-1 dispatcher or refer to your most recent CPR training.

B. Practice of Plan:

1. Ohio Revised Code (ORC) 3701.851 requires the Emergency Action Plan (EAP) to be practiced at least quarterly.
2. Follow recommendations or requirements, as appropriate, specific to your school, location, or organization for training on CPR and AED use.
3. Develop a schedule for practicing your plan.

C. Maintenance of Automated External Defibrillators (AEDs):

Follow manufacturer's instructions with regards to maintenance, operation, and replacement of the AED and any of its parts.

D. Location of Automated External Defibrillators (AEDs):

1. Ensure AEDs are easily accessible and ensure they are not locked away.
2. Include maps of where AEDs are located in and around the school, venue, and sports and recreation location so staff, students, guests, volunteers, and community members can locate them quickly in an emergency.

E. Additional Considerations:

1. Designate a person(s) at your school, location, or organization who can coordinate and supervise CPR/AED program activities, trainings, AED maintenance, and practice of response plans.
2. Share your emergency action plan for AEDs with your local emergency management services (EMS) in advance of a medical emergency.
