Medina Pop-Up Bee Park Opens at 380 South Broadway

A Main Street Medina Committee and many generous donors worked together to create a welcoming and relaxing outdoor space with public art, a stage, seating, and pollinator plants that now transform an underused commercial space into a perfect place to relax and enjoy the beauty around us. A summer mural called *Asaph's Bouquet* was created by Logan Gsellman, the fall mural called *Fruits of Labor* was designed by Sid Fraizer, and the large metal floral art pieces are the work of Leo Miller. Everything complements Medina's bee history and the beauty of native pollinator plants. For more photos and a list of donors, click [HERE](#).
